Sources

This information is the 2007 e-rate amount for all school districts. I have included a "Level" column to give you an idea which would be on your list. They have included elementary and high school in many of the districts, so I guess you should put the whole amount in your spreadsheet. There are a few HS for high schools alone and many elementary schools that won't be on your list.

Some districts have more than one rate and I'm not sure for your spreadsheet we care what those rates are, you might want to put in just the total amount the district receives.

Nancy Hall
